glee@leecountync.gov

Lee County Government is in the process of updating the current county website that has been in existence since late 2006. The current site offers adequate information but the County realizes it is time for a design and content change. With the County's growth and changes over the past 7 years it is felt that the website needs changes and improvements.

While the employees and management teams of Lee County can and will provide valuable input on the pros and cons of the existing site, the County would like input from the public and businesses that use the website to aid in the new design efforts.

The Lee County website is one of the most valued resources the County owns and maintains and should be able to act as a marketing tool and resource tool for all those that visit it.

Please visit the Lee County website (leecountync.gov) beginning September 11th through the end of the month to access a brief survey that will give the County information needed to ensure that the website changes that are on the horizon are in line with what the citizens of the County are looking for. The survey will be easily accessible in the middle pane of the page and should take less than 10 minutes to complete.

If you have questions or are unable to locate the survey, please contact IT Director Kyle Edwards at 919-718-4680 Ext. 5408.
