A roster circulated during the meeting for members to review, and if necessary, update information for the active voting members and their designees.

Tony Armen, Dixie Pipeline, presented general and safety information about the pipeline in an effort to heighten public awareness and knowledge. Additional materials were made available to the committee for further information.

Shane reminded everyone that now is a good time to check contingency plans and warning devices before severe weather threatens. He also mentioned that in light of the mass shooting in Orlando, active shooter plans and security at facilities be reviewed as a precautionary measure.
